

WHEN TO USE CARE WORKS HEALTH SERVICES

Who is a Good Candidate for Home Care?

Home care can be beneficial for individuals who are getting older, are chronically ill, are recovering from surgery or are disabled. Perhaps your patients need assistance with day-to-day tasks but do not need to be in an assisted living or skilled nursing community. Home care could be the right fit for them.

When patients...

Recently discharged from an inpatient hospitalization, rehabilitation, or a stay at a skilled nursing facility

Need ambulation support due to unsteady gait

Has had multiple falls

Forgetting to take medications or is having trouble managing medications

Has experienced recent weight loss due to poor nutrition or at risk of malnutrition

Are at risk of dehydration

Recently has lost a loved one and are feeling isolated and depressed

Needs transportation to appointments such as chemotherapy, dialysis, or infusion treatments

If your patients can benefit from our services call us 24/7 at

The Importance of Home Care

Home care is a valuable option for an individual who desires to maintain their independence and continue their life in the comfort of their home.

A study done by the AARP showed that **90% of individuals over age 65** want to stay at home as long as possible.
